To Whom It May Concern:

Re: LETTER OF RECOMMENDATION

It is with great pleasure that I recommend SASEL Limited since they completed electrical works at our office building located at #29 Harris Street, San Fernando. SASEL Limited had been contracted in March 2007 and completed the job in full in October 2008.

For the duration of that project SASEL Limited executed the scope of work in a timely and efficient manner, along with a well qualified team of workers and support staff. Their ability to analyze problems and outline necessary courses of action was invaluable. At present everything works well and their service is effective and timely.

I can recommend SASEL Limited as a solid and reliable Electrical Sales and Service provider and experts in their field.

Respectfully,

Sasha Ian Addo
Managing Director
